

NESPELEM VALLEY ELECTRIC

CO-OP, INC.

RATE SCHEDULE I

IRRIGATION SERVICE

AVAILABILITY:

Single phase available in all areas served by the Cooperative's system. Poly phase available in all areas served by the Cooperative's system served with poly phase power.

APPLICABILITY:

Applicable to pumps of 100 horsepower or less for power on a continuous basis for irrigation pumping.

TYPE OF SERVICE:

Single phase for pumps of 10 horsepower or less.
Three phase for irrigation pumps less than 100 horsepower.

Electric Rate:

Capacity Charge	\$9.00 per horsepower per month
Energy Charge	\$.046 per kWh
Minimum Annual Charge	\$45.00 per horsepower

DETERMINATION OF HORSEPOWER:

The horsepower for billing purposes shall be the sum of the motor manufacturer's nameplate ratings of the horsepower output of the pump installation, except if the Cooperative elects, it may be determined by actual measurements of the power input during a period of maximum normal use.

POWER FACTOR:

The consumer agrees to maintain unity power factor as nearly as practicable. The Cooperative reserves the right to measure such power at any time. Should measurements indicate the average power factor is less than 95%, the power factor penalty for billing purpose shall be the measured demand increased by 1% for each percent, or fraction thereof, that the power factor is below 95% multiplied by the KW Demand charge.

TERMS OF PAYMENT:

The above rates are net, with the gross rates being 10 percent higher. In the event the monthly bill is not paid on or before the 25th of the current month, the gross rates shall apply.

EFFECTIVE DATE:

Effective April 1, 2018
